

NAVIGATION ROBOT USING RASP CONTROLLER APP GROUP – 10

GROUP MEMBERS:

N.MONEESH – AM.EN.U4AIE20150

KUCHARLAPATI AKASH VARMA – AM.EN.U4AIE20141

GUDLA DINESH REDDY– AM.EN.U4AIE20130

GANDHAM SAI RAM PAVAN – AM.EN.U4AIE20125.

REFERENCES:

- ROS Robotics Projects by Lentin Joseph Chapter 7
- [Connection of mobile to raspberry](#)
- [Motor driver connections](#)
- [Robot chasis kit assembling](#)
- [Connecting motor driver to raspberry](#)

The project was developed using the reference from Chapter 7 in the book called ROS Robotics Projects by Lentin Joseph.

The 2nd link is helped us to connect android phone to raspberry.

The 3rd link is helped us to know more about motor driver of model l298n connections, pins .

The 4th link is helped us to know more about robot chasis kit , assembling the robot parts in a correct manner.

The 5th link is helped us to connect motor driver to raspberry means connecting motor driver pins to raspberry gpio pins.
